

Corporate Governance

At the Maxell Group, one of our basic management policies is to pursue enhanced medium- to long-term corporate value through the implementation of management measures that reflect the viewpoints of all stakeholders, including shareholders and other investors, customers, and employees. Accordingly, we will expedite both management decision-making and operational implementation while simultaneously strengthening oversight systems, and thereby strengthen corporate governance.

Transition to a Holding Company Structure—A Governance System Suited to Growth

The Maxell Group transitioned to a holding company structure on October 1, 2017 with the conviction that the Group requires an expansion of its business scale to achieve sustainable growth and a management framework suited to realizing swift growth.

Maxell Holdings, Ltd. (the Company) has a management framework consisting of five directors, and three directors who serve as Audit and Supervisory Committee Members. The Company's Board of Directors decides on Groupwide management policies and medium- to long-term business strategies. In addition, the Board supervises directors and executive officers in the execution of their duties as well as operating companies in the execution of their operations. The Board comprises eight members, including three independent outside directors, and the chairman serves as the head of the council.

Since transitioning to a Company with an Audit and Supervisory Committee in June 2016, the Company has worked to reinforce the audit and oversight functions of the Board of Directors through said committee. In addition, to ensure the objectivity and transparency of the committee as an advisory council to the Board of Directors, we established the Nomination and Remuneration Committee, with a majority of its members being independent outside directors.

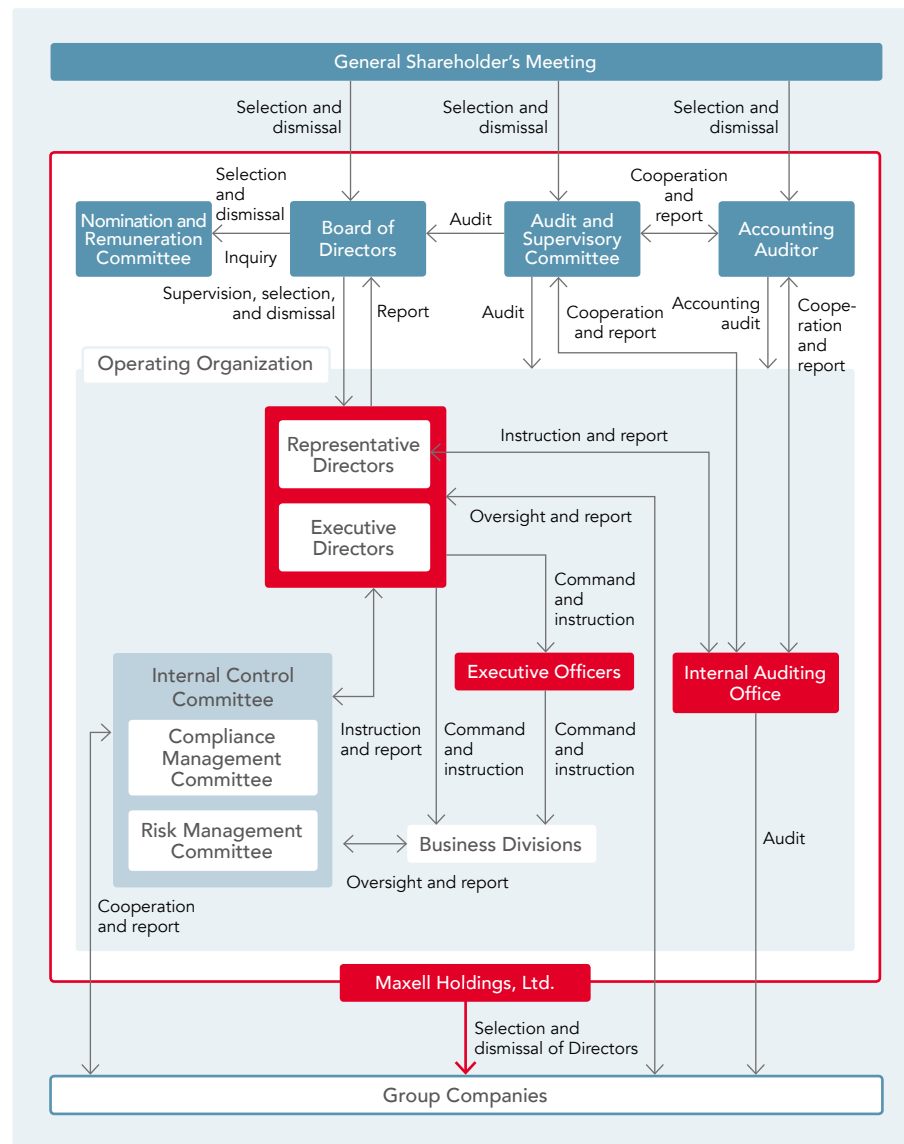

Moreover, the Company has adopted an executive officer system in an effort to make management more efficient and accelerate decision-making related to the execution of operations.

Corporate Governance Guidelines

Aiming to achieve sustainable growth and enhance its medium- to long-term corporate value, the Maxell Group formulated its basic views and basic policies concerning corporate governance in October 2015. The full text is available on Maxell's official website.*

 2. The amounts of remuneration for directors (excluding Audit and Supervisory Committee Members) include executive bonuses for the fiscal year under review for four directors (excluding Audit and Supervisory Committee Members) of ¥82 million that are expected to be paid in June 2018.

▲ Strengthening of the Internal Control System

The Maxell Group has established the Internal Control Committee to reinforce corporate governance and ensure its effectiveness in helping to achieve management goals and improve corporate value for the entire Group. The committee strives to enhance internal control systems and improve Groupwide management systems, including those related to compliance and risk management, by strengthening their functions.

Corporate Governance

▲ Evaluation of Effectiveness of the Board of Directors

Based on its Corporate Governance Guidelines, the Company regularly evaluates the effectiveness of the Board of Directors with a view to increasing the Board's effectiveness and heightening corporate value.

▲ Strengthening Compliance

The Maxell Group has continuously engaged in building an appropriate management structure, enhancing its internal control systems, and developing its compliance structure. Specifically, we established the Compliance Management Committee and are working to build a system to strengthen compliance within the Maxell Group.

With regard to export security, the Export Control Committee closely evaluates export license requirements and conducts rigorous audits of applications and users (catch all control audits). This is done to prevent the unauthorized diversion or subversion of the Company products for use in weapons of mass destruction and/or conventional weapons and to ensure compliance with relevant laws and regulations. In November 2014, we obtained special general bulk license approval* for exports and we pledge our ongoing commitment to responsible self-management going forward.

* A system under which the Minister of Economy, Trade and Industry certifies a corporation with an appropriate internal management system and track record to act on behalf of the national government with regard to some export licensing operations.

Establishing an External Compliance Helpline

The Maxell Group has long maintained the Maxell Compliance Helpline, a whistle-blower system designed to facilitate the quick discovery of legal violations and unfair practices and thereby enhance its internal self-regulatory capabilities. Aiming to further strengthen compliance management, the Group has now established a whistle-blower system connected to a lawyer independent from management for reporting illicit behavior on the part of management or other problems that are difficult to investigate internally. Further, no significant legal violations occurred within the Group in fiscal year 2017.

Respect for Human Rights

The Maxell Group recognizes respect for human rights as an important management issue and established the Maxell Group Human Rights Policy in September 2013, based on the Declaration on Fundamental Principles and Rights at Work of the International Labor Organization (ILO) and the International Bill of Human Rights.

Under the Group's employment rules, sexual harassment and power harassment are unequivocally prohibited. We continue to strengthen our internal anti-harassment system.

In the area of respect for human rights, we have been working to raise awareness of the issue through rank-specific training as well as Groupwide training. We will continue to work assiduously to promote widespread awareness of human rights.

▲ Risk Management

The Maxell Group identifies and assesses Groupwide risks, assigns a division to manage each risk item, and sets and manages response policies for these risks.

The Risk Management Committee is convened once a year to identify important risk management matters related to strategies, finances, hazards, and operations, and reviews each risk management activity before reporting the results to the Internal Control Committee.

Information Security

The Maxell Group has formulated an Information Security Policy and strictly complies with relevant regulations, systems, and safety measures. We also focus on educational activities to raise the information security awareness of each employee.

In fiscal year 2017, we provided courses on "Information Security Education" and "Personal Information Protection Measures." Since acquiring privacy mark certification in May 2013, we have continued to get recertified to date.

Please refer to our Corporate Governance Report for details on the implementation status, etc. of the Corporate Governance Code.
